Network and Basil Singh, Area  
Director, OSHA Dallas Area Office.*

## **The ArkLaTex Chapter of the Service, Transmission, Exploration and Production Safety (STEPS) Network renew their Alliance agreement with the OSHA Dallas and Baton Rouge Area Offices.**

On November 8, 2017 Liz McDaniel, President of the ArkLaTex Chapter of the STEPS Network signed a renewal Alliance agreement with OSHA Baton Rouge Area Director Dorinda Folse, and Dallas Area Director Basil Singh.

The ArkLaTex Chapter meetings take place the second Wednesday of alternate months and Safety Managers and Coordinators in the **Oil and Gas Industry** within the tri-state (Arkansas, Louisiana and Texas) region are encouraged to attend and participate in the sharing of their safety program information. The Compliance Assistance Specialists from the Dallas and Baton Rouge Area Offices of OSHA regularly attend these meetings and offer OSHA Updates and publications regarding Oil & Gas Industry Hazard Alerts and other industry safety statistics.

OSHA's Alliances provide parties an opportunity to participate in a voluntary cooperative relationship with OSHA for purposes such as raising awareness of OSHA's rulemaking and enforcement initiatives, training and education, outreach and communication. These Alliances have proven to be valuable tools for both OSHA and its Alliance participants. By entering into, or renewing an Alliance with a party, OSHA is not endorsing or promoting, nor does it intend to endorse or promote, any of that party's products or services.
